

FREE TEMPORARY HOUSING FOR CANCER PATIENTS AND CARE GIVERS!

Meet "Tabitha", a traveling teardrop trailer purchased to provide free temporary housing for cancer patients who are undergoing extended treatment.

Many patients have to spend long periods of time near a hospital to receive the best possible care. However, with medical bills piling up, some patients and their families simply don't have the money to rent hotel rooms.

The T@B trailer is the perfect place to relax and get a good night's sleep. It can be parked in the RV area of local hospitals, or at nearby campgrounds that agree to donate space. The T@B travel trailer has a queen size bed, a stove, refrigerator, toilet, and surround sound DVD/TV/stereo.

Because it is dedicated to cancer patients and their families, when not in use, the T@B travels to various relays, walks, health fairs and races throughout the U.S. to promote cancer awareness and education.
